Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Sunday 07 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Turning cloudy overnight with outbreaks of rain.

This Evening and Tonight:
A generally dry start to the evening with some clear spells, but soon turning cloudy as outbreaks of rain develop across the region. Rain most persistent over western hills, with brief drier interludes to the east. Mild. Minimum temperature 4 deg C (39 deg F).

Monday:
A mild but cloudy day, with outbreaks of rain, especially in the west. Some brighter interludes in the east through the afternoon, with rain becoming more sporadic. Maximum temperature 10 deg C (50 deg F).

Outlook for Tuesday to Thursday:
Mainly dry Tuesday, with brighter spells, any drizzle over western hills. Occasionally heavy rain Wednesday with strong winds. Heavy, blustery showers and possible gales Thursday. Mild, but marked wind chill.
